## Pallets

Ultra-lite structural foam technology carrier pallets: innovatively engineered for minimum weight : maximum strength ratio. Clean and easy to handle.

Made from recycled and recyclable plastic. Damaged pallets still have value, no cost of pallet repair and maintenance as with wooden pallets. Impervious to acids, fats, solvents and odours. Resistant to moisture, insects, rodents and fungi: comply with ISMP 15 regulations. Withstand deep freezing and steam cleaning. UV and weather resistant so can be stored outside without spoiling. Many designs nestable to save on storage and transportation costs. No nails, splinters and joints to damage goods. Nestable ultra-lite pallets fit air freight pallets. Consistent dimensions and weights good for use with automatic palletizing systems, and also with handlifts (pallet jacks). Customised company markings / logo available to order.

Ultraleichte Paletten aus strukturellem Schaumstoff. Innovatives Design mit minimalem Gewicht und maximaler Festigkeit. Sauber und einfach zu

handhaben. Hergestellt aus wiederverwertetem und wiederverwertbarem Plastik. Beschädigte Paletten haben immer noch einen Wert, es entstehen keine Kosten für die Reparatur und Wartung der Paletten wie bei Holzpaletten. Unempfindlich gegenüber Säuren, Fetten, Lösungsmitteln und Gerüchen. Widerstandsfähig gegen Feuchtigkeit, Insekten, Nagetiere und Pilzbefall. Entspricht den ISMP 15 – Regulierungen. Die Paletten können bei Minustemperaturen gelagert und dampfgereinigt werden. Sie sind UV-beständig und wetterfest und können ohne Probleme draussen gelagert werden. Viele Palettenarten sind stapelbar, um Stauraum und Transportkosten zu sparen. Keine Nägel, Splitter und Verbindungsstücke, die die Waren beschädigen können. Die stapelbaren, ultraleichten Paletten, geeignet für Luftfrachtpaletten. Aufgrund der einheitlichen Abmessungen und Gewichte sind die Paletten zum Einsatz in automatischen Palettisierungssystemen geeignet und können auch mit Handlifts bewegt werden (Palettenheber). Die Paletten können mit Kunden-Markierungen / Kunden-Logos versehen werden.

Paletas de carga de tecnología de esponja estructural ultra-ligeras: diseñadas innovadoramente para índice de mínimo peso : máxima resistencia. Limpias y fáciles de manejar. Fabricadas de material plástico reciclado y reciclable. Paletas dañadas aún tienen valor, sin costo de reparación y de mantenimiento como las paletas de madera.

Insensibles a los ácidos, grasas, solventes y olores. Resistentes a humedad, insectos, roedores y hongos; cumplen con las reglas ISMP 15. Resisten alta congelación y limpieza a vapor. Resistentes a condiciones climáticas y a luz UV, de manera que pueden ser almacenadas a la intemperie sin estropearse. Muchos diseños pueden ser apilados para ahorrar en costes de almacenaje y transporte. No se enclavan, no se astillan ni se pegan dañando mercancía. Paletas ultra-ligeras apilables se adaptan a paletas de transporte aéreo.

Dimensiones consistentes y pesos adecuados para uso con sistemas de palatizado automático así como también con elevadores manuales (gatas de paleta). Se pueden solicitar con marcas / logotipos comerciales.

Palettes de transport issues de la technologie en mousse structurale Ultra-Légère – conçue sur la base d'une ingénierie innovante pour atteindre un poids minimum et un coefficient de résistance maximum. Propres et faciles à manipuler. Fabriquées à partir de plastique recyclé et recyclable. Les palettes endommagées ne sont pas perdues: pas de coût de réparation ni d'entretien comme avec les palettes en bois.

Imperméable aux acides, graisses, solvants et odeurs. Résistant à l'humidité, insectes et rongeurs; antifongique – conforme aux normes et réglementations ISMP 15. Résiste au gel et à la congélation et au nettoyage à la vapeur. Résiste aux intempéries et aux UV - et peut donc être entreposé à l'extérieur sans crainte de dégradation. Nombreux modèles emboîtables afin de limiter les besoins et coûts d'entreposage et de transport. Pas de clous, éclats ou attaches qui risqueraient d'endommager les marchandises. Palettes emboîtables Ultra- Légère adaptables aux palettes de fret aérien. Des dimensions et des poids pertinents permettant l'utilisation avec des systèmes de palettisation automatique ou à l'aide de chariots élévateurs (fourches d'élévation). Marquage personnalisé de l'entreprise / possibilité de logo sur commande.

Ультралёгкие переносные поддоны в соответствии с технологией изготовления из конструкционного пенопласта: инновационный проект для минимизации веса: максимальный коэффициент прочности. Чистота и простота в обращении. Выполняются из повторно используемой пластмассы, допускающей последующее повторное использование. Поврежденные поддоны сохраняют ценность, ремонт и уход за поддонами не требуют затрат, как это имеет место при работе с деревянными поддонами.

Непроницаемы для кислот, жиров, растворов и запахов. Устойчивы к воздействию влаги, насекомых, грызунов и грибка: соответствуют инструкциям ISMP 15. Противостоят воздействию глубокого замораживания и очистки паром. Противостоят воздействию ультрафиолетового облучения и погодных условий, поэтому могут храниться снаружи, не подвергаясь повреждению. Для сокращения расходов на хранение и транспортировку применяются многочисленные конструкции складных поддонов. Помещаемые на них продукты не повреждаются вследствие отсутствия гвоздей, острых обломков и соединений.

Складные ультралёгкие поддоны могут быть использованы в качестве поддонов для воздушной транспортировки. Постоянные размеры и вес удобны для использования в системах автоматической укладки а также с штабелёром для поддонов (устройство подъёма поддонов). Для заказов используются фирменная маркировка в соответствии с условиями заказчика / логотипы.

## Company profile

### Plasgad: Neuheiten aus Plastik - Plastik in Aktion

Die Firma Plasgad ist ein Plastikspritzguss-Hersteller, spezialisiert auf die Herstellung von innovativen Plastikprodukten, der auf mehr als 25 Jahre Erfahrung zurückblicken kann. Die zwei Fertigungsanlagen von Plasgad in dem High-tech-orientierten Israel arbeiten mit automatisierten, Roboter-unterstützten Technologien, unterstützt von initiativen Forschungs- und Entwicklungsaktivitäten, und stellen Plastikprodukte her, die einfach ökonomisch sinnvoll sind:

- **Innovative** und funktionelle Designs
- **Kostengünstige** Benutzung, Transport und Aufbewahrung, wodurch Energiekosten eingespart werden
- Alle Produkte sind **vollständig wiederverwertbar**, und ,soweit dies möglich ist, werden **wiederverwertete** Materialien eingesetzt.
- Zuverlässige, einheitliche, hochqualitative Produkte
- Kurze Lieferzeiten weltweit, Kundendienst auf hohem Niveau

**Kennzeichnung während des Spitzgußvorgangs** wird vom Betrieb angeboten:

Logoaufdruck oder Logoeinprägung auf Anfrage

Die Maschinen von **Plasgad** produzieren eine Produktpalette, die von winzigen Teilen bis zu grossen, strapazierfähigen Paletten reicht. .

- **Plastikpaletten**, leicht aber stark
- **Material-Handhabung**: Kisten, Eimer, Boxen und Wannen für Transport und Aufbewahrung
- **DIY**: Aufbewahrungslösungen, Baumaterial, Deko-Zubehör
- **Kinder-Produkte**: Möbel und Aufbewahrung
- **Spezielles**: Individuell gefertigte Gegenstände bei grossen Bestellmengen

\* Die Firma behält sich Änderungen der im Katalog aufgeführten technischen Einzelheiten vor.

### Plasgad Innovaciones de Plástico - plástico en acción

**Plasgad** es un fabricante de novedosos productos, especializado en moldeado de material plástico por inyección con más de 25 años de experiencia. Las dos fábricas de Plasgad en Israel de alta tecnología utilizan tecnología asistida por robot respaldada por Investigación y Desarrollo pro-activos para fabricar productos de material plástico que simplemente tienen sentido económico:

- Diseños **innovadores** y funcionales
- **Eficientes al coste** en el uso, transporte y almacenaje, ahorrando en costos de energía
- Todos los productos son **totalmente reciclables** y de material **reciclado** utilizado donde es apropiado
- Productos confiables y consistentes de **alta calidad**
- Cortos periodos de entrega en el mundo entero y servicio de alto nivel al Cliente
- **Rotulado en-molde** ofrecido bajo techo: impresión y serigrafado de logotipo a pedido

La maquinaria de **Plasgad** produce desde piezas pequeñas hasta grandes y robustas paletas. La gama incluye:

- **Paletas plásticas**, ligeras-pero-resistentes
- **Manejo de material**: cajones, contenedores, cajas y tinas para transporte y almacenaje
- **Hágalo UD Mismo (DIY)**: soluciones de almacenaje, materiales de construcción, accesorios de decoración
- Productos para **niños**: muebles y almacenaje
- **Especialidades**: artículos confeccionados a pedido respondiendo a demanda de gran volumen

\* las especificaciones de catálogo están sujetas a cambios

### Les innovations des plastiques Plasgad- le plastique en action

Plasgad, spécialiste du moulage plastique par injection, fabricant d'articles innovants en plastique, bénéficie de plus de 25 ans d'expérience.

Les 2 usines Hi-Tech de Plasgad en Israël opèrent dans le cadre d'une technologie de pointe, d'automatisation et de robotisation (production assistée par robot). Cet ensemble est renforcé par la Recherche & Développement proactive intense pour parvenir à fabriquer des produits en plastique dont l'objectif est orienté vers un intérêt économique évident:

- Des modèles fonctionnels et **innovants**
- **Excellent rapport économique** à l'utilisation, au transport et à l'entreposage, économisant des coûts d'énergie.
- Tous les produits sont **entièrement recyclables**, et le matériau recyclé est réutilisé adéquatement.
- Des produits de **haute qualité**, conçus avec logique et sur lesquels on peut compter.
- Délais de livraison très rapides dans le monde entier et un service clientèle de haut niveau.
- L'étiquetage personnalisé dans le moulage est offert sur place, logo imprimé et gravure sur demande.

Plasgad dispose de machines de production pouvant fabriquer de la plus minuscule pièce jusqu'aux palettes à grande capacité. L'éventail de produits comprend:

- **Palettes en plastique**, légères mais extrêmement solides
- **Matériel de manutention**: cageots, coffres, bacs et casiers à bouteilles, boîtes et bennes de transport d'entreposage.
- **Bricolage**: solutions de rangement, outils et matériel de construction, accessoires de décoration.
- **Articles pour enfants**: mobilier et rangement.
- **Articles spéciaux**: produits fabriqués sur mesure à la commande afin de répondre aux besoins des grands volumes.

### Пласгад - пластиковые инновации - пластик в действии

Пласгад является специалистом в области изготовления новых пластмассовых изделий с использованием технологии литья с пластичным проникновением, на основе более чем 25-летнего опыта. Пласгад имеет в Израиле 2 передовых предприятия, использующих автоматическую технологию с применением роботов, поддерживаемую упреждающим исследованием и развитием для изготовления пластмассовых изделий, экономически целесообразных:

- Целенаправленные и профессиональные **компоновки**
- **Простые в обращении**, транспортировке и хранении, тонкие.
- Все продукты полностью **повторно используемые**, материал можно использовать повторно.
- Надежные, гармоничные, **высокого качества**.
- Скоростная доставка на земле, высокий уровень обслуживания.
- Основная индикация в рамках организации: знак и чеканка по просьбе.

Применяемое Пласгад машинное оборудование обеспечивает изготовление мельчайших деталей для крупных поддонов, предназначенных для тяжелого режима работы. В диапазон изделий входят:

- **Пластмассовые поддоны**, легкие но прочные.
- **Изделия для работы с материалами**: корзины, бункеры, коробки и бады для транспортировки и хранения.
- **Сделай сам**: конструктивные решения для складирования, строительные материалы, декоративные детали.
- **Изделия для детей**: мебель и изделия для хранения.
- **Специальные изделия**: изделия по особому заказу в соответствии с широким диапазоном требований.
