About us

MARFIE 2000 Sp. z o.o. was established in 2001

MARFIE 2000 Sp. z o.o have been producing candles in Poland for several years.

All our scented and decorative candles are made by hand from high quality raw materials.

Our candles are produced in twelve colours, each individually scented from a carefully selected suite of fragrances. They are clean burning and long lasting. Filling the room with their bouquet, creating a unique atmosphere to suit any mood, style or personality.

We guarantee a unique sensory experience from our range of candles produced by skilled craftspeople.

Our highly skilled artisans make each candle by hand. These are made to the individual requests of our customers. Each candle is formed using traditional methods in small batches. By using manual tools, the wax is kneaded and shaped. Each candle is thus unique and unrepeatable.

We use a mixture of natural wax, palm wax, beeswax, and hydrotreated paraffin wax. We use high-quality, organic cotton wicks, making our candles burn cleanly and provide long-lasting fragrance. We can increase the fragrance percentage to 5% upon customer request. This is recommended for larger spaces such as spas, hotel lobbies or restaurants.

The cream of our candle collection are the flowers. They are truly distinctive and extremely popular with our customers. Being supplied in three sizes and a wide variety of colours and scents, there is something to meet everyone's taste and pocket. They are a little piece of luxury for an affordable price.

If you are interested in our products, we would be more than happy to supply some samples free of charge for you to review.

Flower Candle Collection

Our flower candles are available in three sizes and a wide variety of colours and scents.

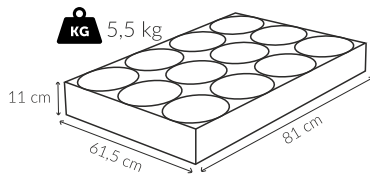

All our scents are carefully blended to suit all seasons and moods. Lighting our candles may bring up childhood memories of cinnamon buns cooling in the kitchen, walking through a lavender meadow, or relaxing with a cup of freshly brewed green tea.

Flower Candle Large Catalogue No. F03

- ∅ diameter - 20 cm
- ▴ height - 10 cm
- ⚖ weight - 0,46 kg

Flower Candle Small Catalogue No. F01

- ∅ diameter - 13 cm
- ▴ height - 7,5 cm
- ⚖ weight - 0,12 kg
- 🕒 burning time - 6h

📦 Package quantity 24

Additional Information

It is possible to order a specific mix of scents and colours within a single package of candles. However a package cannot contain a mixture of shapes and sizes. The number of candles per package along with the package sizes are supplied in this brochure alongside the candle types. For protection, each flower is separately packaged in a plastic container before being collected into a packaging carton.

Our candles are dispatched on wooden pallets measuring 120x80x180cm (length x width x height). A single pallet holds between 28 and 40 packages.

Additional glitter can be added to our candles upon request.

Delivery

We use RABEN POLAND Sp. z o.o. for all our shipments outside of Poland. Average delivery time is between 4 and 6 working days. The cost of delivery is calculated based on the weight of the goods being shipped. This cost is clearly communicated within our quotation.
